

Environmental Policy

Imagine Construction Services is committed to conducting all of its company operations in an environmentally responsible manner.

Imagine Construction Services will comply with all current Government legislation and regulations that apply to its activities.

To this end Imagine Construction Services recognises that there are many steps that it can take to continuously improve its environmental performance and thereby reduce or prevent damage to the environment. These steps can also add value to our business and make a positive contribution to the success of the company. In other words, we do not believe that good environmental management and the financial wellbeing of the company are incompatible.

The Company is committed to preventing pollution and aims to minimise the environmental impact of its activities by:

1. Working closely with clients, statutory authorities and local communities
2. Minimising noise
3. Preventing pollution of water, land and air
4. Minimising waste and reusing or recycling material
5. Disposing of waste responsibly
6. Protecting wildlife and habitats
7. Protecting archaeological remains and sites of historical importance

The Company will continually strive to improve environmental performance, including encouraging and recognising contributions from employees.

The Company will set environmental objectives as minimum on an annual basis. These will be reviewed during the annual Management Meeting.
